INTERSECTION WORK TO BEGIN IN NEW LONDON
IMPROVEMENTS TO NH 103A/COUNTY ROAD/STONEY BROOK ROAD INTERSECTION

The New Hampshire Department of Transportation announces the start of construction to reconfigure the intersection of NH Route 103A with County Road and Stoney Brook Road to a four-way stop in the Town of New London.

Work is expected to begin on Monday August 2, 2004. Motorists are advised that once work has started, the intersection will become a four-way stop.

One-way alternating traffic at the intersection will be necessary to complete the work. Flaggers will be utilized to guide motorists through the construction work zone.

The Department of Transportation's Highway Maintenance District 2 will be constructing the \$28,000 project.
